elōs™

safely restore youthful, healthy looking skin

Safely and comfortably fade the appearance of skin imperfections caused by the sun, and uneven skin tones caused by brown and red spots (such as rosacea, spider veins and age spots).

We're proud to offer elōs, the first and only technology that uses combined energies to effectively and gently restore and rejuvenate the appearance of your skin.

skin rejuvenation treatments

Fade freckles, sun spots and age spots.

Safely treat tiny spider vessels and brown and red spots.

How does skin rejuvenation with elōs work?

The combined bi-polar radio frequency and light energies of elōs technology precisely and safely target pigmented lesions such as freckles, sun spots and age spots. Vascular lesions such as spider vessels and redness from rosacea are also lightened and gradually fade.

Is skin rejuvenation with elōs right for me?

elōs is an effective treatment for most skin types.

When can I expect to see results?

Gradual and cumulative improvement of skin tone is typically achieved in 5 treatment sessions. The total number

of required treatment sessions depends on your skin's condition. Schedule a consultation to establish your personalized treatment schedule.

Does it hurt?

Cooling of the skin surface ensures additional safety during treatment. This is a no-downtime procedure. Many patients return to normal activities immediately after treatment.

How much does it cost?

Treatment costs vary. Schedule a personalized consultation for more details.
